# COMPANY PAYROLL SYSTEM

MADE BY AHMED MOHAMED AHMED MOHAMED METWALY

# THE IDEA OF PROJECT : STORE DATA AND ACCESS IT BY THIS FEATURES :.

- Add Employee

- Edit The Data Of Stored Employees.

- Calculate The Payment Of Stored Employees.

- Search For A Certain Employee And Display His/Her Data.

- Calculate The Average Payment For All Employees.

# NOTES :

- I Used File To Save Data In It And Retrieve it Again From The File And Access It In All JFrames

- In The First Run The Program It May Appear A MessageBox Saied "The File Is Not Found " But When Adding A First Employee The File Will Be Crieted
